## OBJECTIVE

---

Highly motivated BSCS IT student seeking a challenging internship opportunity to leverage my MERN Stack (MongoDB, Express.js, React.js, Node.js) and Laravel development skills in a real-world environment. Eager to learn from experienced professionals and contribute to impactful projects.

## EDUCATION

---

**Bachelor of Computer Science and Information Technology**, Tribhuvan University 2020 - present +2  
**Computer Science**, St. Lawrence 2018 - 2020

## SKILLS

---

<b>Programming Language</b>	C/C++, Javascript
<b>Libraries/Frameworks</b>	React.js, Express.js, Node.js, Next.js, Laravel, Dotnet, Git, HTML5, CSS
<b>Database</b>	MangoDB, MySQL, Firebase
<b>Platform</b>	Vercel
<b>Soft Skills</b>	Problem Solving, Time management, Team Work, Communication

## EXPERIENCE

---

**Laravel Developer** May 2023 - Present  
CAB-Tech RnD *Chabil, Ktm*

- Developed accessible user interfaces in Laravel for the college LMS, ensuring all students, could access course materials and participate in online learning.
- Learned and implemented Task management and Communication using different tools such as Jira and Slack

**QA and React Intern** Feb 2022 - Sep 2022  
Software Pasal *Budhanilkhanta, Ktm*

- Performed quality assurance for a CMS software.
- Created and optimized software using React.

## PROJECTS

---

### Ecommerce Website

- Built a ecommerce website "BikeHub" where user can buy and sell second hand bikes using Laravel, MySql and blade.
- It has a secure payment integration using paypal and I learnt how to optimise a website with the help of lighthouse.

### Recipe App

- Built a MERN stack recipe app allowing users to add, edit, delete, and view recipes.
- This project honed my skills in CRUD operations, JWT authentication for secure user access, and React hooks for efficient component management.

### HachiBlog

- I built a dynamic blog with Next.js, leveraging Server-Side Rendering for SEO and performance.
- This project allowed me to explore Prisma for data management, Firebase Storage for secure image hosting, and React Quill to create a rich text editing experience for crafting engaging blog posts.
